

Framework for VACRO Children's Foundation

Your generous donations to the Children's Foundation will go towards the following areas:

Research

- Supporting small projects for VACRO research in identified target areas
- Supporting the opportunity to participate in partnership opportunities that pursue VACRO larger identified research targets

Communication

- Development of resources and publications that provide information for clients, workers or others in relation to the needs of children of offenders and their families.
- Projects that support awareness raising and advocacy with stakeholders in relation to the needs of children of offenders and their families.
- Projects that support consultation with key stakeholders on future sustainability of services for children of offenders and their families.

Development

- Supporting the groundwork for the development of new models of service delivery

Implementation

- Supporting the trial of new and innovative services that meet the needs of children of offenders and their families.
- Supporting expansion and or continuation of services that provide relevant supports to the children of offenders and their families.
- Supporting the evaluation of services that provide relevant supports to the children of offenders and their families.

Program Support

- Supporting the employment of critical extra family focused staff at VACRO
- Supporting the purchase of identified goods to meet the material & programmatic needs of service delivery to the children of offenders and their families.
- Supporting access to improved spaces for meeting the needs of child specific services
- Supporting improvements or purchase of technology to improve VACRO's communication with the children of offenders and their families

What the Foundation will not Support

- Funding to meet individual client needs
